

# Jargon Card!

## How to use the Jargon Card...

The Jargon Card can be used in any meeting where someone might use words people don't understand, but nobody is brave enough to say "Er, what does XYZ mean?"

Rather than suffering in silence and being mega polite, the chair/facilitator can circulate this sheet before the meeting and give people permission to raise it when they hear something they don't understand, as you can be sure everyone is thinking it and just not saying so to not look stupid. The Jargon Card means you can say!

You're welcome! Hee Hee! - Katie.
